

Assignment 1 - Keys
Linguistics 201 – Spring 2026
(100 pts total)

Part 1. Grammaticality and Acceptability (3 points/item, 9 points total)

1. Books the are on brown the table.

ungrammatical, the determiner is never after an adjective in English

2. The teacher said that her was late.

ungrammatical or unstandard, for ungrammatical, some people don't accept her using as a pronoun, but some people do... so in that sense, it is nonstandard

3. The children ain't playing in the yard.

nonstandard (grammatical), the use of *ain't*

Part 2. Morphemes (4 points/word, 16 points total)

1. rearrangement

rearrangement: simple, polymorphemic

re-: prefix, bound, derivational

arrange: root, free

-ment: suffix, bound, derivational

2. firetruckdriver

firetruckdriver: compound, poly-

fire: root, free

truck: root, free

drive: root, free

-er: suffix, bound, derivational

3. Massachusetts

Massachusetts: simple, monomorphemic

Massachusetts: root, free

4. thickeners

thickeners: simple, polymorphemic

thick: root, free

-en: suffix, bound, derivational

-er: suffix, bound, derivational

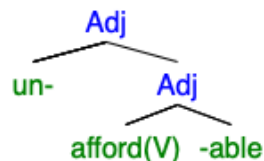

-s: suffix, bound, inflectional

Part 3. Morphological Processes. (4 points/item, 16 points total)

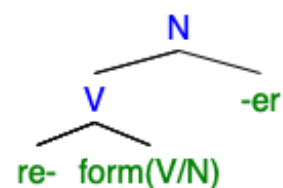

1. bad → worse
suppletion, all sounds changed
2. fire, fight → firefighter
compounding, fire, fight, two roots
suffixation, -er is added to the stem
3. take → retook
prefixation, re- is added to the stem
alternation, some sounds changed,
from retake → retook
4. like → like-liked
reduplication, 'like' is reduplicated
suffixation, -ed is added to the stem

Part 4. Morphological Trees (5 points/tree 20 points total)

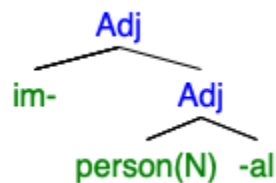

1. unaffordable

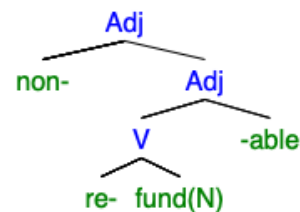

2. reformer

3. impersonal

4. nonrefundable

in (4), *fund* should be a V, it is also ok taking it as a N, but refund is a V

Part 5. Allomorphs (8 points total)

1. What are the plural and accusative morphemes in Turkish? Identify all the **allomorphs** of the plural and accusative morphemes that are present in the data. (4 points)
plural: -lar, -ler
accusative: -i, -ı, u, -ü
2. Is the plural morpheme a suffix or infix? Explain your reasoning, making reference to concepts discussed in class and specific words in the dataset above. (4 points)
suffix, it goes after the root

Part 6. Morphological Analysis (31 points total)

Consider the following data from Zulu, and answer the questions that follow.

- a. What is the morpheme meaning “singular” in Zulu? (2 point)

um-

- b. What is the morpheme meaning “plural” in Zulu? (2 point)

aba-

- c. List the Zulu roots to which the singular and plural morphemes are attached and give their meanings. (16 points) *remember, a stem is different from root*

faz “married woman

baz “carver”

fan “boy”

lim “farmer”

zal “parent”

dlal “player”

fundis “teacher”

fund “reader”

- d. Compare these words to the words in section A that are related in meaning, for example, *umfundisi* “teacher,” *abafundisi* “teachers,” *fundisa* “to teach.” What is the derivational suffix that specifies the category verb? (2 points)

-a

- e. What is the nominal suffix (i.e., the suffix that forms nouns)? (2 points)

-i

- f. State the morphological noun formation rule in Zulu. (3 points)

(a rule is written in the form of “*something* + *something* = *something*”. For example, the rule of English plurals is written as *noun* + “-s” = *plural noun*.)

stem word + “-i” = *noun*, or

“um-/aba-” + *root* + “-i” = *noun*

- g. What is the stem morpheme meaning “read”? (2 points)

fund

- h. What is the stem morpheme meaning “carve”? (2 points)

baz
